SUBISU, A Title Sponsor of CAN Info-Tech 2016

For the 3rd consecutive year, Subisu held the title sponsorship of CAN Info-Tech 2016 and ICT Conference 2016. President of Subisu, Mr. Sudhir Parajuli stated CAN Info-Tech, a better and suitable branding platform to showcase ICT related products and services, where customers are catered with vital and required information about different products and services through a single roof.

He further added “Being a pioneer in the field of ICT business we have been supporting this event holding the title sponsorship and would like to thank CAN Federation for organizing such event which helps to promote Information Communication and Technology (ICT) sector of the country”.

Marking the same occasion, Company had introduced the “Grand Offer” for its customers, which allowed customers to get the services in a best bid.

Clear TV now with 29 HD Channels

Targeting Subisu CAN Info-Tech 2016, company has summed up 5 more HD channels to its broadcasting vertical. Added channels Zee TV HD and 5TV HD fall under Entertainment category, Zee Cinema HD and 5 Pictures HD belong to Movie category and Ten HD to its Sports HD category. With the addition of these five exclusive HD channels, now Clear TV holds 29 HD channels in its HD Line up.

CORPORATE INITIATIVE >>>

SUBISU Expands its Network in Terathum Region - Wireless at both Trunk and Client end

SUBISU has started catering its existing and potential clients at Terathum - Myaglung region via fiber. Since fiber is the backbone of network connectivity that makes it more convenient and compatible medium than others, expanding our network via fiber provides better uptime and guaranteed bandwidth for our clients.

Network Expansion at Sukkhad -Kailali

Recently, Subisu has established a POP at Sukkhad (Kailai) to address the Client and Sukkhad regions for ICT services. Subisu considers Sukkhad a key point to cover the Western region in Tribhuvan Highway.

Network Expansion at Salyan within Next quarter

Realizing the necessity of fiber expansion at Salyan and around for different ICT services, the Company has been planning to expand its network to the region. The expansion process is underway and will be provided within next quarter.

SUBISU's Proposed Expansions

Subisu is planning to expand its network in Lumbini and Banggadi- Banke regions, establishing POP (Point for Presence). Thus, Company will be able to provide services to existing and potential client at and around the region with better efficiency and dedication within the next quarter.

SUBISU, A Partner of Enterprise Business

Subisu with its more than 850+ dedicated employees and 50+ support staffs are dedicated to provide better support system to its clients, organizations & enterprises. We provide optimized services & solutions to the organizations to go hand in hand. Company provides various value added services in its existing network to bring optimum utilization.

In present, Subisu has more than 29 branches all over Nepal with its network reach to 69 districts and carries an ambitious plan to cover 75 districts in the near future. Company is planning to come up with the state of the art ticketing service to better serve its existing and new customers.
